**POWER IS OUR LIFE!**

## Power Purchase Agreement

### Structure

Infiniti and partners own, operate, and maintain the array. The client purchases electricity from Infiniti for the term.

### Benefits

- No capital required.
- Create price stability and hedge against rising utility prices.
- All EPC and O&M is included.

#### PPA Provider Developer

Installs solar PV system at no initial cost to customer  
Owns, finances, operates, and maintains the PV system

#### Your Organization Customer / Offtaker

Provides rooftop or land for PV system  
Buys solar energy generated for the duration of contract  
Buys additional electricity as needed from the grid

#### Electricity Retailer Utility / Municipality

Provides electricity as needed from the grid  
Purchases excess solar electricity from the developer

## Asset Ownership

### Structure

Client takes ownership at commissioning. Infiniti is available for ongoing O&M as requested.

### Benefits

- Good return on investment and tax benefits.
- Create price stability and hedge against rising utility prices.
- No term commitment.

### A Sustainable Future Through Solar Solutions

Infiniti Energy is a full-service company, providing superior solar solutions to achieve our clients' sustainable energy goals. Our experienced team offers the entire spectrum of development services including site acquisition, origination, full EPC, financing, and long-term asset ownership.

Hayden Power provides the highest quality electrical construction work in the safest manner for all of our customers.
